P R E F A C E

As usual during the year 2007 the Office of the Chief Government Statistician (OCGS) was pre-occupied with its normal business of collecting and compiling data pertaining to economic and social life of Zanzibar and her people.

The Statistical Abstract has been such an important source of information and presents data for users. Data from almost all sectors of the economy and social aspects which are compiled by OCGS are presented. It is hoped that, it will enhance the use of statistics for planning and decision-making.

The Abstract presents brief information on the legislature, population, agriculture, industries, electricity and water, hotel and commerce, employment, Consumer Price Index and the general economy for the years 2002-2007.

We are most grateful and thankful to all who participated in making this publication another reality. We look forward to continue cooperating with them all.

It is our belief that no work of a human being is 'error free'. We therefore would like our esteemed users to forward constructive criticisms with a view towards improving future reports. The Office of Chief Government Statistician welcomes comments from users not only on the quality of data published but also on the relevance and additional statistical series they would like to be included in order to strengthen the Zanzibar Statistical System. Any comment should be channelled to services@ocgs.go.tz or zanstat@zanlink.com.

Mohammed H. Rajab
Chief Government Statistician
Zanzibar
May, 2008.

GENERAL NOTES

1. Where necessary, figures have been rounded off and for this reason there may be, in some tables an apparent discrepancy between the of the constituents items and the total shown
2. Throughout the tables, the following symbols have been used
 - a. - means data not available
 - b. ... means not applicable
3. Except where otherwise stated, tonnes means metric tons of 1000 kg each
4. Data for 2007 are provisions

ABREVIATIONS
